

Below is the list of the eligible and ineligible costs associated with the Septic System Replacement Fund.

Eligible Cost

Design and installation costs;

Costs of the system;

System components;

Enhanced treatment technologies;

Design costs (limited only to work needed to complete approved design).

Ineligible Cost

Routine maintenance such as pump out of a septic tank;

Expenses that are not appropriately documented;

Government permit fee;

Interest and late fees;

Fines and penalties;

Sales tax payment;

Non-essential site beautification or interior plumbing changes;

Administrative work conducted by the engineer; and

Construction observation by the engineer if the engineer, or an entity owned, controlled by or employing the engineer, is also conducting the repair or replacement.
